

Accept Bitcoin payments with CoinCorner Checkout

Stand out from the crowd by accepting Bitcoin payments at your business.

Quick and easy setup

Get up and running in minutes!

Global reach

Appeal to new customers worldwide.

Eliminate fraud

No chargebacks with Bitcoin.

Just 1% fee

Lower than payment processors like PayPal.

Why do people buy Bitcoin?

Will you be part of the inevitable?

Take Back Control

Bitcoin is "decentralised" which means that no central authority (like a Government or bank) controls it. It can be sent to anyone, anywhere in the world in a matter of minutes.

Pay For Goods

With a growing number of businesses now accepting Bitcoin as a payment method, many people are using it to pay for everyday goods and services.

Store Of Wealth

Often called "digital gold", many people buy Bitcoin as a store of wealth and as a way to diversify their investment portfolio.

“ Bitcoin is the most ground-breaking technological innovation since the internet ” –
Danny Scott, CEO

Why Choose CoinCorner?

Accept Bitcoin via CoinCorner's Point-of-Sale App

Accept Bitcoin using CoinCorner Checkout

CoinCorner Checkout provides brick and mortar merchants with an easy way to accept Bitcoin payments directly from an app for POS (point-of-sale) transactions.

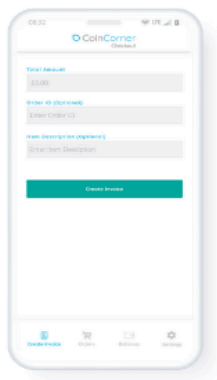

The CoinCorner Checkout app is available on [Android](#) and [iOS](#) devices — download it now to get up and running in minutes!

Start [accepting Bitcoin payments](#) today by registering for a business account, or read on for more details.

• • •

So, how does the app work?

Once you've made a business account and downloaded the app, follow these easy instructions to accept your first Bitcoin payment!

Create invoices quickly

Go to *Create Invoice* and simply enter the *Total Amount*, an *Order I.D* and an *Item Description* (both optional). This will generate an on-screen QR code which the customer scans to pay the invoice.

Extra features

As well as being able to accept Bitcoin payments, you can use the app to make refunds to customers and check your order history/balances.

Set up a refund in minutes!

- **Refunds** — Go to the relevant order to create a *Refund*, enter the *Amount* in GBP (£) and the customer *Bitcoin address*. Press the refund button to complete the process. Simple!
- **Orders** — View your recent orders and their status details in the *Orders* tab.
- **Balances** — Check your available balances, including GBP, EUR, BTC, ETH LTC and XRP.

Getting set up

Step 1 — Set up a free business account at coincorner.com/merchantregister.

Step 2 — After registering, download the app and login.

Step 3 — Create your first order and accept Bitcoin!

Accept Bitcoin via CoinCorner Checkout

CoinCorner Checkout allows CoinCorner business account holders to accept Bitcoin payments for their goods or services through a website plugin that can be downloaded from their account. Integrating CoinCorner Checkout also allows users to accept point of sale payments through our checkout app, this is available on both the iOS and Android app stores.

CoinCorner Checkout is available for sites that use:

- WooCommerce
- Magento
- OpenCart
- OsCommerce
- PrestaShop
- NopCommerce
- Zen Cart

Why use CoinCorner Checkout?

Free and Easy to Use

Installing our plugin to your checkout process will allow your business to seamlessly accept Bitcoin payments. Your customers will be shown a QR code which they can scan to pay for your goods or services in Bitcoin, once payment has been completed the funds will show in your CoinCorner business account balance in either BTC or GBP/EUR depending on your settlement information. Exposure to the Bitcoin price volatility is removed by locking in the price at the time of purchase for 10 minutes, and integration is completely free.

Order History

A full Order History can be found in the *Orders* tab, this will show all orders received via CoinCorner Checkout. In your Order History you will see the date and time of the order, the order ID, the item purchased, amount purchased for and the order status (completed, expired, cancelled). Clicking into an order will also give more information including the BTC amount and remitting wallet address.

Create Invoices

If you don't have a website that accepts payments you can still use CoinCorner Checkout to receive payment in Bitcoin. You can create invoices in your account that can be sent via email for your customer to pay, or generate an invoice via a link that takes the customer to CoinCorner Checkout to pay.

Create Checkout Buttons

You can also create checkout buttons in your CoinCorner account that can be used on your site to redirect your users to the payment screen. All you need to do is enter the item information and URLs we ask for on the *Payment Buttons* page and click a button to create your checkout button.

Process Refunds

You can process refunds on a purchase within a few clicks in your CoinCorner merchant area. Refunds will be processed back to a customer in Bitcoin at the current price at the time of the refund. Customers may receive a different amount of Bitcoin than they originally sent due to movements in the price, but the fiat value will always be the same. The refund process is completely free for you as a CoinCorner business account holder, we cover all the fees for you.
